RAAGUL SIVANATHAN

QUALITY ASSURANCE ENGINEER

+94 76 539 4746 | raagul.s@outlook.com | linkedin.com/in/sraagul | github.com/sraagul99

SUMMARY

Quality Assurance Engineer with 3+ years of experience in manual and automation testing across web applications. Skilled in functional, regression, API, and integration testing, with hands-on experience in Cypress, TypeScript, Cucumber, Jira, and Azure DevOps. Experienced in test design, defect analysis, release validation, and Agile collaboration, with exposure to AI-assisted testing approaches.

PROFESSIONAL EXPERIENCE

Azend Technologies - Colombo, Western Province, Sri Lanka **Apr 2024 - Present**

Associate Quality Assurance Engineer

- Designed and executed test plans, test cases, and test scripts across 5 web-based projects, covering manual, automation, functional, regression, smoke, API, ad-hoc, and black-box testing.
- Developed and maintained 100+ automated test cases using Cypress, TypeScript, and Cucumber, improving regression coverage and reducing repetitive manual testing effort.
- Performed API testing, functional validation, regression testing, and deployment validation to verify application behavior against business and technical requirements.
- Investigated and tracked software defects throughout the testing lifecycle, performing defect analysis, debugging, root-cause investigation, and retesting to support effective resolution.
- Used Jira and Azure DevOps for test management, defect tracking, test execution, reporting, and Agile team collaboration.
- Collaborated with developers, clients, and cross-functional stakeholders to clarify requirements, communicate QA status, investigate issues, and provide quality-related feedback.
- Supported release and deployment validation activities, identifying high-risk areas, system limitations, and testing gaps to improve release confidence.
- Created and maintained QA documentation including test plans, test cases, defect reports, test procedures, execution results, and QA reports.
- Applied AI-assisted testing approaches and AI agents to support test analysis, test design, defect investigation, documentation, and QA workflow efficiency.
- Mentored junior QA interns on test case design, defect reporting, QA best practices, testing techniques, and Agile workflows, while supporting knowledge sharing within the QA team.

:Different - Colombo, Western Province, Sri Lanka **Jul 2022 - Jul 2023**

Quality Assurance Intern

- Designed and executed test cases based on system specifications, covering API, functional, and ad-hoc testing.
- Developed and maintained automated test scripts using Cypress to improve testing efficiency and coverage.
- Identified, documented, and tracked software defects while collaborating with developers to support timely resolution.
- Contributed to weekly automation objectives by developing and maintaining new automated test cases.

EDUCATION

Bachelor of Engineering (Hons) in Software Engineering **2020 - 2024**
Informatics Institute of Technology (IIT), affiliated with the University of Westminster

Foundation Certificate in Higher Education **2019 - 2020**
Informatics Institute of Technology (IIT), affiliated with the University of Westminster

Diploma in Information Technology (DITEC) **2018 - 2019**
ESOFT Metro Campus

TECHNICAL SKILLS

Test Automation: Cypress, Cucumber

Programming Languages: TypeScript, JavaScript, Python, PHP

API Testing: REST API Testing, Swagger/OpenAPI

Testing: Manual, automation, functional, regression, smoke, API, ad-hoc, black-box testing

Test Management & Defect Tracking: Jira, Azure DevOps, ClickUp

Database: MySQL, SQL

Version Control: Git, GitHub

Methodologies: Agile, Scrum

QA Practices: Test case design, test planning, defect analysis, root-cause investigation, test documentation, deployment validation

ACADEMIC PROJECTS

Final Year Web Development Quiz App (2024)
Developed a responsive web-based quiz application with interactive features.

Final Year Project - SugarD (2023 - 2024)
Designed a diabetes management app to track blood glucose levels and provide health insights.

Software Development Group Project - CropVisor (2021 - 2022)
Contributed to an agriculture management tool for tracking crop health and yield.

ACTIVITIES & LEADERSHIP

Member - Koddamunai Sports Club | Active Participant - Rotaract Club of IIT | Batch Representative - IIT (2nd Year) | Prefect - SMC
